Objective:
Third-year Human-Centered Computing student at RIT, seeking a Summer or Fall 2019 co-op in UX research, Product Design, or UX design.

Education:
Rochester Institute of Technology, Rochester, NY
Bachelor of Science in Human-Centered Computing - Graduating May 2021

Tech:
Sketch, InVision, Illustrator, Photoshop, Axure, Morae, Minitab, GitHub, JavaScript, HTML, CSS, PHP, PhpStorm, Microsoft Office, Java

Skills:
UX Research, User Interviewing, Usability Testing, Lo-Fi/Hi-Fi Prototyping, Heuristic Evaluation, UX/UI Design, Visual/Written/Verbal Communication, Crossfunctional Communication, Statistical Analysis, Public Speaking, Leadership, Object-Oriented Programming, Mobile App Development, Web Development

Experience:
Codice - UX Design/Research Intern
July 2018 - August 2018
- Redesigned and prototyped DC Summer Youth Employment Program youth portal, used to register participating youth and assist them in the job finding process
- Conducted heuristic evaluation of the CelerKost cost reporting software, delivered a report of findings and design recommendations

Tuple Health - UX Research Intern
July 2017 - August 2017
- Conducted early ethnographic research regarding development of a service to increase patient access to community resources, reduce patient readmission rates, decrease ER usage, and encourage preventative care
- Interviewed clinical staff focusing on our project objectives and coded results
- Analyzed patient discharge workflow, created flowcharts mapping the follow-up care process

George Washington University Psychology Department – **Research Intern**
January 2015 - January 2016
- Administered experiments studying the perception of distance and reviewed results
- Engaged with participants directly, communicating clear and concise directions about the assigned tasks

Leadership / Activities:
- RIT UX Club Treasurer
- Gray Matter Discussion Facilitator
- IST Student Ambassador
- Idunno Zen Buddhist Community

Projects:
Ohana Smart Home App Prototype
Spring 2018
- Designed and tested a prototype for a smart home hub app as part of a 3-person team
- Brainstormed the app, decided app functionalities, created and tested lo-fi and hi-fi prototypes
- Used paper prototypes, Sketch, and InVision for prototypes, Morae for user testing

UNIX Tutorial Website and Design Document
Fall 2017
- As team leader, coordinated meetings, brainstorming sessions, and design decisions
- Created personas, determined information architecture, assisted with coding, advised site design
